Completing Number Sentences

Name _____ Date _____ No calculator Version 1 Scan to practise this topic online

KEY WORDS number sentence · equals · missing number · opposite operation · balance

A Adding and subtracting ●○○

Remember: Use the opposite operation. For $8 + \square = 15$, work out $15 - 8$.

1. Write the missing number in each box.

a) $8 + \square = 15$ **b)** $\square + 6 = 14$ **c)** $\square - 6 = 9$

d) $20 - \square = 13$ **e)** $25 + \square = 40$ **f)** $\square - 12 = 18$

g) $\square + 35 = 100$ **h)** $50 - \square = 28$ **i)** $17 = \square + 9$

j) $16 = \square - 4$ **k)** $130 + \square = 200$ **l)** $\square - 45 = 55$

B Multiplying and dividing ●●○

Remember: Use the opposite operation. For $4 \times \square = 28$, work out $28 \div 4$.

2. Write the missing number in each box.

a) $4 \times \square = 28$ **b)** $\square \times 9 = 54$ **c)** $\square \div 5 = 6$

d) $30 \div \square = 6$ **e)** $7 \times \square = 56$ **f)** $\square \div 3 = 9$

g) $\square \times 6 = 48$ **h)** $72 \div \square = 9$ **i)** $45 = 5 \times \square$

j) $7 = \square \div 4$ **k)** $10 \times \square = 120$ **l)** $\square \div 10 = 25$

C Keeping the balance ●●●

Watch out: The box is not always "the answer". In $8 + 5 = \square + 6$ both sides must be equal. The left side is 13, so the box is 7, not 13.

3. Write the missing number in each box.

a) $8 + 5 = \square + 6$ **b)** $6 + 4 = \square + 3$ **c)** $12 - 5 = \square - 3$

d) $9 + \square = 10 + 6$ **e)** $20 - 8 = 6 + \square$ **f)** $5 \times 4 = 10 \times \square$

g) $3 \times 8 = \square \times 6$ **h)** $24 \div 4 = \square \div 2$ **i)** $\square + 9 = 4 \times 5$

j) $30 \div \square = 2 \times 3$ **k)** $15 + 15 = \square \times 6$ **l)** $50 - \square = 5 \times 7$

D The missing sign ●●○

4. Write +, −, × or ÷ in each box to make the number sentence true.

a) $6 \square 4 = 24$ **b)** $15 \square 3 = 5$ **c)** $9 \square 7 = 16$ **d)** $20 \square 8 = 12$

e) $7 \square 7 = 49$ **f)** $36 \square 4 = 9$ **g)** $25 \square 25 = 50$ **h)** $30 \square 6 = 24$

i) $8 \square 5 = 40$ **j)** $48 \square 6 = 8$ **k)** $100 \square 10 = 90$ **l)** $12 \square 12 = 144$

E Problems ●●●

5. Write a number sentence with a box for each problem. Then find the number that goes in the box.

a) Mia has 9 stickers. After her birthday she has 24. How many stickers did she get?

b) 6 friends share the cost of a present equally. The present costs $42. How much does each friend pay?

c) Tane had $50. After buying a book he has $18 left. How much did the book cost?

d) 5 boxes of 4 pens hold the same number of pens as 2 larger boxes. How many pens are in each larger box?

★ Extension

6. Write the missing number in each box. Where there are two boxes, the same number goes in both.

a) $2 \times \square + 3 = 15$ **b)** $\square + \square = 18$ **c)** $\square \times \square = 49$

KEY WORDS number sentence · equals · missing number · opposite operation · balance

A Adding and subtracting ●○○

Remember: Use the opposite operation. For $8 + \square = 15$, work out $15 - 8$.

1. Write the missing number in each box.

a) $9 + \square = 16$ **b)** $\square + 5 = 13$ **c)** $\square - 7 = 8$

d) $25 - \square = 17$ **e)** $35 + \square = 60$ **f)** $\square - 14 = 16$

g) $\square + 45 = 100$ **h)** $60 - \square = 36$ **i)** $19 = \square + 8$

j) $15 = \square - 5$ **k)** $140 + \square = 200$ **l)** $\square - 35 = 65$

B Multiplying and dividing ●●○

Remember: Use the opposite operation. For $4 \times \square = 28$, work out $28 \div 4$.

2. Write the missing number in each box.

a) $6 \times \square = 42$ **b)** $\square \times 8 = 48$ **c)** $\square \div 4 = 7$

d) $40 \div \square = 8$ **e)** $9 \times \square = 63$ **f)** $\square \div 6 = 6$

g) $\square \times 7 = 56$ **h)** $81 \div \square = 9$ **i)** $35 = 5 \times \square$

j) $8 = \square \div 3$ **k)** $10 \times \square = 150$ **l)** $\square \div 10 = 32$

C Keeping the balance ●●●

Watch out: The box is not always "the answer". In $8 + 5 = \square + 6$ both sides must be equal. The left side is 13, so the box is 7, not 13.

3. Write the missing number in each box.

a) $7 + 6 = \square + 4$ **b)** $7 + 5 = \square + 4$ **c)** $14 - 6 = \square - 2$

d) $8 + \square = 10 + 5$ **e)** $30 - 12 = 9 + \square$ **f)** $6 \times 4 = 12 \times \square$

g) $4 \times 9 = \square \times 6$ **h)** $36 \div 6 = \square \div 2$ **i)** $\square + 8 = 3 \times 7$

j) $40 \div \square = 2 \times 4$ **k)** $20 + 20 = \square \times 8$ **l)** $60 - \square = 5 \times 9$
