Number Sentences

Name _____ **Date** _____ No calculator Version 1

KEY WORDS number sentence · equation · equals · inequality · greater than · less than · balance

A True or false? ●○○

WORK IN YOUR BOOK

Remember: The equals sign means "is the same as". Work out each side on its own, then compare the two answers.

1. Work out both sides. Is each number sentence true or false?

a) $8 + 5 = 6 + 7$ **b)** $4 \times 6 = 30 - 4$ **c)** $20 - 9 = 5 + 6$

d) $36 \div 4 = 3 \times 3$ **e)** $7 + 8 = 9 + 5$ **f)** $5 \times 5 = 50 \div 2$

g) $12 - 4 + 3 = 12 - 7$ **h)** $2 \times 3 + 4 = 2 \times 7$ **i)** $18 \div 2 + 1 = 5 \times 2$

B Inequality signs ●●○

ANSWER ON THE SHEET

Remember: $<$ means "is less than" and $>$ means "is greater than". The small end of the sign points to the smaller number. $\leq$ means "less than or equal to" and $\geq$ means "greater than or equal to".

2. Write <, > or = in each box.

a) $7 + 6 \square 15$ **b)** $4 \times 5 \square 18$ **c)** $30 - 12 \square 9 \times 2$

d) $6 \times 7 \square 50 - 9$ **e)** $45 \div 5 \square 2 \times 5$ **f)** $8 + 9 \square 20 - 2$

g) $3 \times 3 \times 3 \square 5 \times 5$ **h)** $100 \div 4 \square 5^2$ **i)** $12 + 12 \square 5 \times 5$

3. Is each number sentence true or false?

a) $9 \leq 9$ _____ **b)** $4 + 5 \geq 10$ _____ **c)** $6 \times 3 \leq 20$ _____

d) $15 > 15$ _____ **e)** $20 - 6 \geq 14$ _____ **f)** $7 \times 2 < 3 \times 5$ _____

4. Circle the numbers that make each sentence true.

a) $\square + 4 > 10$: $3, \quad 5, \quad 6, \quad 7, \quad 9$

b) $3 \times \square < 20$: $4, \quad 5, \quad 6, \quad 7, \quad 8$

c) $\square - 5 \geq 3$: $6, \quad 7, \quad 8, \quad 9, \quad 10$

C Completing number sentences ●●○ — ANSWER ON THE SHEET

⚠ **Watch out:** The box is not always "the answer". In $8 + \square = 15$ the box is 7. In $6 + 4 = \square + 3$ both sides must be equal, so the box is 7, not 10.

5. Write the missing number in each box.

a) $8 + \square = 15$ **b)** $\square - 6 = 9$ **c)** $4 \times \square = 28$

d) $\square \div 5 = 6$ **e)** $20 - \square = 13$ **f)** $\square \times 9 = 54$

g) $6 + 4 = \square + 3$ **h)** $5 \times 4 = 10 \times \square$ **i)** $12 - 5 = \square - 3$

j) $3 \times 8 = \square \times 6$ **k)** $\square + 9 = 4 \times 5$ **l)** $30 \div \square = 2 \times 3$

D Problems ●●● — WORK IN YOUR BOOK

6. Write a number sentence with a box for each problem. Then find the number that goes in the box.

a) Mia has 9 stickers. After her birthday she has 24. How many stickers did she get?

b) 6 friends share the cost of a present equally. The present costs $42. How much does each friend pay?

c) 5 boxes of 3 pens hold the same number of pens as 2 larger boxes. How many pens are in each larger box?

★ Extension — FOR EARLY FINISHERS

7. Write the missing number in each box.

a) $2 \times \square + 3 = 15$ **b)** $20 - 3 \times \square = 5$ **c)** $\square \times \square = 49$
