Frequency Tables

Name _____ **Date** _____ Calculator allowed Version 1

KEY WORDS frequency · tally · frequency table · total · mean · median · mode · range

A Making a frequency table ●○○ ANSWER ON THE SHEET

Remember: Make one tally mark for each value. The frequency is the number of tally marks. The frequencies should add up to the number of values.

1. The scores of 20 students in a spelling quiz were: 7, 8, 6, 9, 8, 10, 7, 8, 9, 8, 6, 7, 8, 10, 9, 8, 7, 9, 8, 6

Score	Tally	Frequency
6		
7		
8		
9		
10		
Total		

B Reading a frequency table ●○○ ANSWER ON THE SHEET

Watch out: The mode is the value with the highest frequency. It is not the frequency itself.

2. The table shows the number of pets owned by the students in a class.

Number of pets	0	1	2	3	4
Frequency	6	9	5	3	1

a) How many are there altogether? _____

b) What is the mode? _____

c) What is the range? _____

d) How many are more than 2 pets? _____

3. The table shows the shoe sizes of the players in a football team.

Shoe size	5	6	7	8	9
Frequency	2	4	7	3	2

a) How many are there altogether? _____

b) What is the mode? _____

c) What is the range? _____

d) How many are more than 7? _____

C The mean from a frequency table ●●○

WORK IN YOUR BOOK

Remember: Multiply each value by its frequency and add the answers to get the total. Then divide by the total frequency.

4. The table shows the number of goals scored by a hockey team in each of its games.

Goals	0	1	2	3	4	Total
Frequency	3	6	5	4	2	
Goals × frequency						

a) Complete the table.

b) Find the mean.

5. The table shows the number of people living in each house in a street.

People	1	2	3	4	5	6	Total
Frequency	2	5	4	6	2	1	
People × frequency							

a) Complete the table.

b) Find the mean.

D The median from a frequency table ●●●

WORK IN YOUR BOOK

Remember: The values in a table are already in order. With 25 values the median is the 13th value. Add up the frequencies until you reach it.

6. The table shows the marks out of 5 for a class in a short test.

Mark	1	2	3	4	5
Frequency	2	4	7	8	4

a) How many values are there altogether?

b) Find the median.

7. The table shows the number of books read by a group of students in a month.

Books	0	1	2	3	4
Frequency	4	6	5	3	2

a) How many values are there altogether?

b) Find the median.

★ Extension

FOR EARLY FINISHERS

8. A dice is rolled 60 times. The table shows the results.

Number rolled	1	2	3	4	5	6
Frequency	8	12	9	11	7	13

a) Find the mean of the numbers rolled.

b) Find the median and the mode.
