Perimeter and Circumference

Name _____ **Date** _____ Calculator allowed **Version 1**

KEY WORDS perimeter · side · regular polygon · circumference · diameter · radius · pi (π)

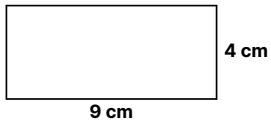

A Perimeter ●○○

WORK IN YOUR BOOK

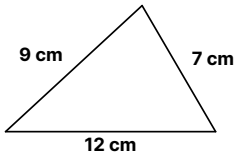

Remember: The perimeter is the distance all the way around a shape. Add the lengths of all the sides.

1. Find the perimeter of each shape.

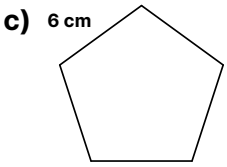

a)

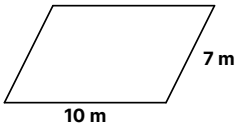

b)

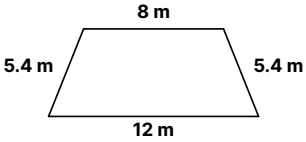

c)

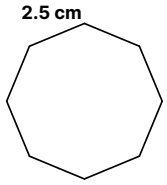

d)

e)

f)

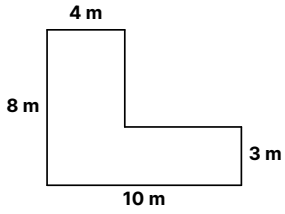

B Missing sides ●●○

WORK IN YOUR BOOK

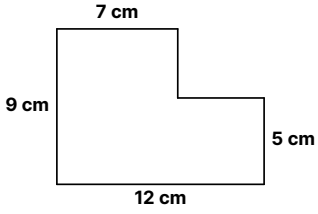

Remember: Use the sides you know to work out the sides that are not labelled. All the corners are right angles.

2. Find the perimeter of each shape.

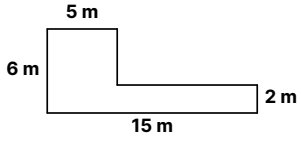

a)

b)

c)

3. Find the missing length.

a) A rectangle has a perimeter of 30 cm and a length of 9 cm. Find its width.

b) A square has a perimeter of 52 m. Find the length of one side.

c) A regular hexagon has a perimeter of 45 cm. Find the length of one side.

C Circumference ●●○ WORK IN YOUR BOOK

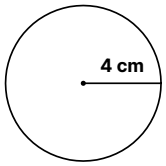

Remember: The circumference is the perimeter of a circle: $C = \pi d$. The diameter is twice the radius. Round to 1 decimal place.

4. Find the circumference of each circle.

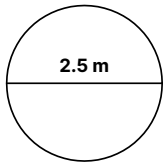

a)

b)

c)

5. Find:

a) The circumference of a circle with diameter 14 cm

b) The circumference of a circle with radius 9 mm

c) The circumference of a circle with diameter 0.6 m

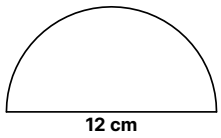

d) The circumference of a circle with radius 2.5 km

D Half and quarter circles ●●● WORK IN YOUR BOOK

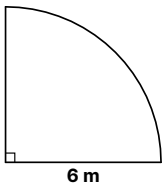

⚠ **Watch out:** The perimeter of part of a circle includes the straight edges as well as the curve.

6. Find the perimeter of each shape, to 1 decimal place.

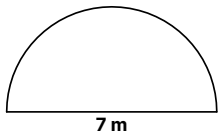

a)

b)

c)

E Problems ●●● WORK IN YOUR BOOK

7. A rectangular garden is 12 m long and 7.5 m wide. A fence around it costs $18 for each metre. Find the cost of the fence.

8. A wheel has a diameter of 60 cm. How many metres does it roll in 50 full turns? Give your answer to 1 decimal place.

9. A rectangle is twice as long as it is wide. Its perimeter is 42 cm. Find its width, x cm, and its length.

★ Extension FOR EARLY FINISHERS

10. A circle has a circumference of 31.4 cm. Find its diameter, to 1 decimal place.

11. A running track has two straight sides, each 80 m long, joined by a semicircle at each end. The semicircles have a diameter of 50 m. Find the distance once around the track, to the nearest metre.

C Circumference ●●○ WORK IN YOUR BOOK

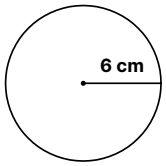

Remember: The circumference is the perimeter of a circle: $C = \pi d$. The diameter is twice the radius. Round to 1 decimal place.

4. Find the circumference of each circle.

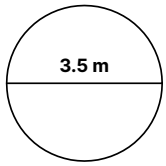

a)

b)

c)

5. Find:

a) The circumference of a circle with diameter 16 cm

b) The circumference of a circle with radius 7 mm

c) The circumference of a circle with diameter 0.8 m

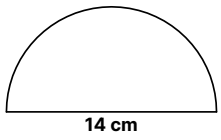

d) The circumference of a circle with radius 1.5 km

D Half and quarter circles ●●● WORK IN YOUR BOOK

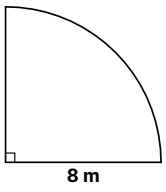

⚠ **Watch out:** The perimeter of part of a circle includes the straight edges as well as the curve.

6. Find the perimeter of each shape, to 1 decimal place.

E Problems ●●● WORK IN YOUR BOOK

7. A rectangular garden is 14 m long and 6.5 m wide. A fence around it costs $16 for each metre. Find the cost of the fence.

8. A wheel has a diameter of 70 cm. How many metres does it roll in 40 full turns? Give your answer to 1 decimal place.

9. A rectangle is twice as long as it is wide. Its perimeter is 54 cm. Find its width, x cm, and its length.

★ Extension FOR EARLY FINISHERS

10. A circle has a circumference of 47.1 cm. Find its diameter, to 1 decimal place.

11. A running track has two straight sides, each 90 m long, joined by a semicircle at each end. The semicircles have a diameter of 60 m. Find the distance once around the track, to the nearest metre.
