Reading Statistical Graphs

Name _____ **Date** _____ No calculator Version 1

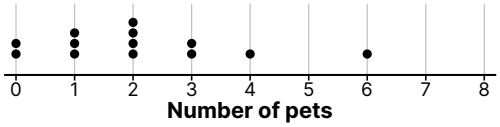

KEY WORDS dot plot · bar graph · histogram · time-series graph · frequency · mode · trend

A Dot plots ●○○

ANSWER ON THE SHEET

Remember: Each dot is one piece of data. The mode is the value with the most dots.

1. The dot plot shows the number of pets owned by each student in a class.

a) How many students are in the class? _____

b) What is the most common number of pets (the mode)? _____

c) What is the largest number of pets? _____

d) How many students have more than 2 pets? _____

e) What is the median number of pets? _____

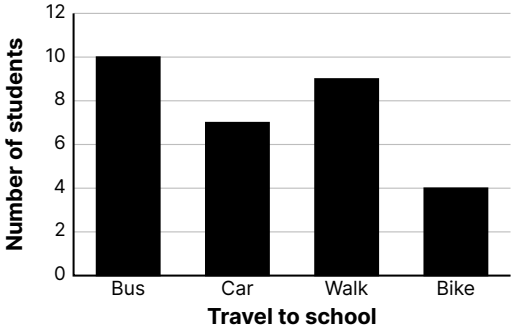

f) How many pets do the students own altogether? _____

B Bar graphs ●○○

ANSWER ON THE SHEET

Remember: The height of each bar shows how many are in that group. Read the height from the scale on the side.

2. The bar graph shows how the students in a class travel to school.

a) Which way of travelling is the most common? _____

b) How many students walk to school? _____

c) How many students are in the class? _____

d) How many more students come by bus than by bike? _____

e) What fraction of the class comes by car? _____

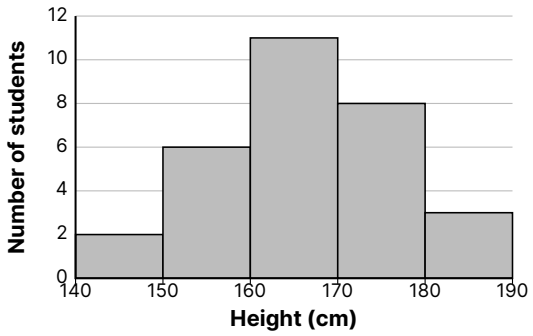

f) How many students do not walk? _____

C Histograms ●●○ WORK IN YOUR BOOK

Remember: A histogram shows measurements in intervals, with no gaps between the bars. The height of a bar is the number in that interval.

3. The histogram shows the heights of the students in a Year 9 class.

a) How many students are between 150 cm and 160 cm tall?

b) How many students are in the class?

c) Which interval has the most students?

d) How many students are 170 cm or taller?

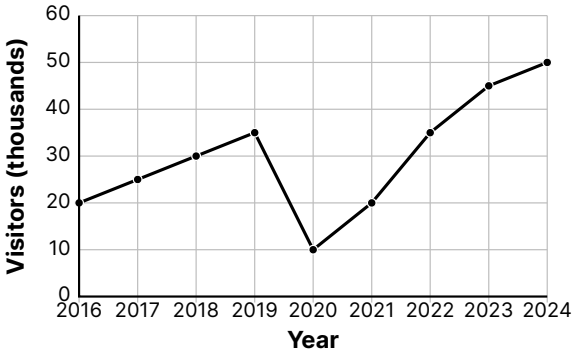

e) How many students are shorter than 160 cm?

f) Can you tell the height of the tallest student from the graph? Explain.

D Time-series graphs ●●● WORK IN YOUR BOOK

Remember: A time-series graph shows how something changes over time. Look for the overall trend as well as the ups and downs.

4. The graph shows the number of visitors to a museum each year, in thousands.

a) How many thousand visitors came in 2018?

b) In which year were there the most visitors?

c) How many thousand more visitors came in 2023 than in 2018?

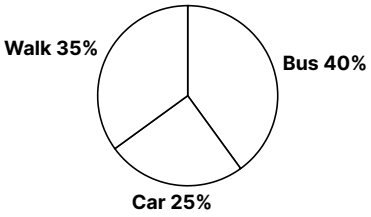

d) Between which two years did the number of visitors fall?

e) How many thousand visitors were lost in that fall?

f) Describe the overall trend from 2016 to 2024.

★ Extension FOR EARLY FINISHERS

5. The pie graph shows how 80 students travel to school.

a) How many of the students take the bus?

b) How many more students walk than come by car?

c) What fraction of the students come by car?
